

# WORK SAFELY AT HEIGHTS

## RIIWH5204D Height Safety Theory and Practical

This course is designed to provide;

- Participants with the ability to develop practical work solutions for specific heights safety related issues in their workplace.
- Explanation on relevant regulations and provide guidance on how to apply standards and industry codes of practice within the framework of their company's policies and procedures.
- Demonstrations in a range of the latest developments in heights safety related personal protective equipment (PPE) and work practices. Participants will be able to apply their newfound knowledge to real situations

### TRAINING OUTCOMES

All successful candidates will receive a Statement of Attainment and personalised ID card as proof of their qualification; RIIWH5204D Work Safely at Heights

### TRAINING FACILITIES

The training can be held at the Highpoint Access & Rescue training facilities, which have the ability to cater for both the theoretical and practical components of the course. The practical component can also be performed on clients sites, catering for specific business needs.
