CARIOPULMONARY RESUSCITATION (CPR)

Including Defibrillation

First Response Australia Pty Ltd is the Registered Training Organisation (No. 5919) offering this course.

Under a third-party agreement, Highpoint Access & Rescue will be delivering the training and assessment.

First Response AUSTRALIA

This course is designed for participants wishing to receive practical experience in the life saving techniques of Cardiopulmonary Resuscitation. Essential for every citizen, whether part of the workplace, participating in recreational activities or at home.

This program also includes thorough training and assessment relating to the use of Automated External Defibrillators (AEDs).

Entry Requirements: Nil

USI: A Unique Student Identifier (USI) number is required for all accredited training in Australia. If you do not provide a USI number the RTO, First Response Australia, may not be able to issue a Statement of Attainment upon successful completion of training.

Competencies Gained:

- HLTAID001 Provide Cardiopulmonary Resuscitation.

Course Duration: 3 Hours (face to face)

Assessment will include: Written/oral questions, practical assessments and scenario-based assessments.

Reasonable Adjustment: Highpoint supports learners with recognised disabilities and makes adjustments, where possible, according to each individual's needs. The level of adjustment required is determined on a case by case basis between Highpoint and the learner with a disability. Highpoint ensures any reasonable adjustment does not compromise the integrity of the competency standards.

Certification: Upon successful completion of the program your electronic Statement of Attainment will be emailed to you within 30 calendar days (subject to all fees having been paid).

Course Physicality: A level of fitness and stamina is required to complete the CPR practical assessment by spending extended periods of time on your knees at floor level.

Course Content:

- Scene assessment and management;
- Casualty assessment;
- Airway management;
- Management of the unconscious breathing casualty;
- Cardiopulmonary Resuscitation (CPR);
  - Adults;
  - Children;
  - Infants.
- Use of Automated External Defibrillators (AEDs).

Dress Code: Work attire as per company policy.

Re-certification: The RTO recommends CPR be renewed every 12 months, as per the Australian Resuscitation Council Guidelines.

Contact us: Call or email today to discuss your requirements for a course, or for a quote.
